

To Whom it May Concern:

My family and I believe that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. My husband and I recently moved and had to change to a new phone number, since that time we have been receiving multiple unwanted phone calls. Our old number had been registered on the "No Call List", and we have since registered our new number, to take effect January 1, 2003. Please do not change legislation, my husband and I value the time we spend at home and do not want to be bothered by solicitors!! Our new number rings between six to nine times a night with unwanted solicitations! We can not wait for the new year and for our new number to be registered! We believe if we want a specific service, we will seek them out!! We do not want to be bothered by unwanted calls!! Thank you for taking the time to see this situation from our view.

Sincerely,

Derek and Amanda Baran
